

Water for All: Conserve, Value, Enjoy

Letter of Reference

USFilter, Envirex (through Public Utilities Board (PUB)'s contractors, Koh Brothers Building & Civil Engineering Contractor (Pte) Ltd and SembCorp Engineers & Constructors Pte Ltd) had designed, manufactured and supplied sludge and scum scraping mechanisms for the primary and secondary clarifiers at Changi Water Reclamation Plant, Singapore.

Project Consultant: CH2M Hill & CPG Corporation

Wastewater treatment capacity of primary & secondary clarifiers where USFilter, Envirex's sludge and scum scraping mechanisms are used: 800 MLD

The plant is currently under construction and is scheduled for completion in 2008.
