

Certificate of Experience

I, the undersigned, an authorized representative of Pryor Creek Water Treatment Plant in Pryor Creek, Oklahoma, USA, do hereby certify that USFilter's Envirex Products was contracted in 1998 to design, manufacture, and put into service the cited equipment presently in operation at our facility.

The equipment that was furnished by Envirex consisted of the following:

- Twelve (12) primary chain and scraper clarifier mechanisms
 - 28 meters (92 feet) by 8.8 meters (29 feet) wide.
 - Intermediate concrete floor above tank floor to allow flights to scrape across two (2) surfaces during operation.
- Rex® NCS720S Nonmetallic collector chain
- Envirex Flight Monitoring system

The system was designed for the following conditions:

Flow	Normal:	m^3/day (50 MGD)
	Maximum:	m^3/day (62.5 MGD)

The equipment was placed in service in 1998, and it has performed in accordance with the design conditions through the present date. We are especially pleased with the reliability of the chain and scraper clarifier mechanisms.
