

Water for All: Conserve, Value, Enjoy

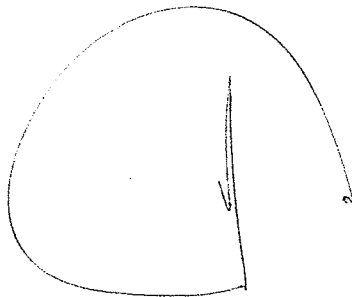

Letter of Reference

USFilter, Envirex (through Public Utilities Board (PUB)'s contractors, Hyundai Engineering & Construction Co Ltd) had designed, manufactured and supplied sludge and scum scraping mechanisms for the primary and secondary clarifiers at Seletar Water Reclamation Plant, Singapore.

Project Consultant: Kellogg Brown & Root Engineers Pte Ltd

Wastewater treatment capacity of primary & secondary clarifiers where USFilter, Envirex's sludge and scum scraping mechanisms are used: 133 MLD

The equipment was placed into service in October 2001, and has been operating satisfactorily till this date.
