

Water for All: Conserve, Value, Enjoy

## Letter of Reference

USFilter, Envirex (through Public Utilities Board (PUB)'s contractor, Mitsubishi Corporation) had designed, manufactured and supplied sludge and scum scraping mechanisms for the primary and secondary clarifiers at Ulu Pandan Water Reclamation Plant, Singapore.

Project Consultant: Camp Dresser & McKee

Wastewater treatment capacity of primary & secondary clarifiers where USFilter, Envirex's sludge and scum scraping mechanisms are used: 75 MLD

The equipment was placed into service in October of 2000, and has been operating satisfactorily till this date.
